- Appendix

I. Geography

This region comprises twenty counties with an area of 8,635 square miles in Northwestern Ohio with a total population of 1,360,977. This is an industrial area with 90% or more of the employed population engaged in non-agricultural occupations. Transportation facilities within the region are adequate to assure prompt access to medical facilities principally by Interstate Highways and the Ohio Turnpike. Seven major railroads serve the Region, in addition to two major interstate buslines, and four major airlines.

The Northwestern Ohio Regional Medical Program is coterminous with the Ohio State Regional Medical Program, Columbus, Ohio, and Northeastern Ohio Regional Medical Program, Cleveland, Ohio.

Northwestern Ohio Regional Medical Program

II. Demography

A. Population: As of 1965, there were approximately 1.4 million people residing in this region.

1. Roughly 73% urban
2. Roughly 92% white
3. Median age: 29.5 (U.S. average - 29.5 years)

B. Land area: 8,635 square miles

C. Health statistics: Mortality rate

1. Rate for heart disease: 371/100,000 (high)
2. Rate for cancer: 155/100,000 (high)
3. Rate for CNS vascular lesions: 109/100,000 (high)

D. Facilities statistics:

1. Medical College of Ohio at Toledo (first year activity)
2. There are 9 nursing diploma schools (RN's) and 5 schools of practical nursing; also there is one AD Program located in Lima Ohio.
3. There are 5 approved schools of Medical Technology.
4. There is one Laboratory of Cytotechnology within this region.
5. There are 10 approved schools of X-ray technology.
6. The total number of hospitals is 43 with 5,976 beds.

E. Personnel statistics

1. There are 1340 M.D.'s (98/100,000) and 120 D.O.'s within this region.
2. The number of active nurses is 6200 (453/100,000).
3. There are 26 physical therapists, 39 medical social workers, 671 dentists and 1,675 occupational therapists.

III. Politics

A. Governor: James A. Rhodes (R), 1967-1971

B. Senators:

1. Stephen M. Young (D), 1958-1971
Member, Special Committee on Aging
Member, Public Works Committee
2. William B. Saxbe (R), 1968-1975
Member, Labor and Public Welfare Committee
Member, Special Committee on Aging

C. Congressmen:

1. Charles A. Mosher (R)
2. Thomas L. Ashley (D)
3. Jackson E. Betts (R)
4. Delbert L. Latta (R)
5. William M. McCulloch (R)

IV. Historical Review

February 1966

First meeting by interested physicians in Toledo area to consider the development of a Regional Medical Program under Public Law 89-239.

"Ad Hoc" Committee formed to establish a Regional Medical Program for Northwestern Ohio. Preliminary inventory of Regional Health Manpower and Facilities.

Approximately \$19,000 in the form of cash, manpower, and facilities for preplanning have been contributed by various agencies as evidence of strong community support for the proposed Regional Medical Program.

May 1966

Meeting held with DRMP to discuss preliminary plans for submitting a planning application.

Encouraged by DRMP to continue work toward making a planning application.

Summer-Fall 1966

Twenty meetings were held by Ad Hoc Committee during this period. Entire region was covered and discussions were held with practicing physicians and hospitals relative to their desire to participate in the program.

April 1967

Because of favorable physician and hospital response it was decided to organize a temporary Regional Advisory Group and proceed with developing a planning grant application.

June 1967

RAG elects officers and an Executive Committee with the directive to prepare a Planning Grant application.

July 1967

Dr. C. Robert Tittle Jr. Was appointed Coordinator.

October 1967

First year request - \$309,180.

November 1967

Council and Committee critique of Planning application:

1. Reviewers impressed with the applications which shows considerable pre-planning.
2. Reviewers felt the budget and program period should be rephased over a two-year period to provide time to get tooled up.
3. Some question as to the resources within this twenty county area for making this a viable region.
4. It was noted by the reviewers that financial assistance had been provided by the Heart Association for the planning phase.

January 1968

01 planning award - \$274,450 DC

Recruitment of Core staff:

Mr. Donald Grubb - Assistant Program
Coordinator

Mr. James L. Pullella - Systems Analyst
Mrs. Loalouise Geiger - R.N.

Mr. Thomas Browning - Systems Communication
Consultant

December 1968

02 planning continuation application submitted to DRMP

DRMP staff review and comments:

1. Consensus of staff that region is making satisfactory progress toward meeting the objectives stated in original application.
2. Core staff recruitment as planned
3. Possibility of establishing a non-profit corporation to serve as grantee
4. Concern noted that 50% core physicians who head categorical programs also serve as chairmen of these reference panels.

Physicians who are chairmen of Reference Panels are appointed to Medical College faculty and paid \$10,000 per year for their activities. They do not really head categorical programs but chair panels which review initially all programs in their disease

category field. They recommend modifications of the proposals, or recommend the proposal be accepted or not by the RAG. All concepts of regionalization are considered in making such decisions.

December 1968

Planning Supplemental Request - \$141,655

January 1969

02 Planning award - \$271,137 DC

January 1969

First operational application submitted - \$1,530,680

April 1969

Site visit - Mr. Joseph S. Murtaugh, Executive Director, Board on Medicine National Academy on Sciences; William S. Spicer, M.D., Coordinator, Maryland RMP; Richard F. Mattingly, M.D., Marquette University School of Medicine; DRMP Staff - Mr. Robert Jones, Mr. Walter Hangen.

Critique and Comments:

1. Noted good interaction with other health related programs.
2. Key strength of program lies in the active support of program by private medical sector.

May 1969

Committee and Councils critique and comments on supplemental and operational request.

1. Agreed with site visit report.
2. Noted high degree of cohesiveness within the region.
3. Cooperative relationships and organizational liaisons have been developed with other RMP's.

4. Suggested that staff be increased to provide additional expertise in biostatistics and epidemiology to strengthen the substantive management of data.

Recommended: approval.

July 1969

First operational award - \$690,702 DC

V. Core Staff

A. The Core staff is located in the Regional office at 1600 Madison Avenue, Toledo, Ohio.

B. The following is a list of the major core staff and their percent of time spent working in the Regional Medical Program.

C. Robert Tittle, Jr., M.D. - Coordinator (100%)

Donald A. Grubb, M.B.A. - Assistant Program Coordinator (100%)

Loalouise Greiger, R.N. - Nursing Research & Lecturer Associate (100%)

James L. Pullella, M.P.H. - System Analyst (100%)

Thomas H. Browning, B.S. - Systems Communications Consultant (100%)

Louis Black, M.D. - Heart Disease (50%)

Daniel Hanson, M.D. - Cancer (50%)

Anthony Ionane, M.D. - Stroke (50%)

Herman W. Reas, M.D. - Related Disease (50%)

James B. Felkey, B.S. - Systems Communications Specialist

Cynthia Ann Haskill - Nurse Associate

BIOGRAPHICAL INFORMATION

1) C. Robert Tittle, Jr., M.D.

- a) B.S., Pennsylvania State University, 1934
- b) M.D., University of Pennsylvania, 1938
- c) President, Pennsylvania Society of Internal Medicine, 1962-63
- d) Clinical Professor of Medicine, Med. College of Ohio at Toledo (July 1967)
- e) Program Coordinator, Northwestern Ohio RMP (July 1967)

2) Donald A Grubb

- a) B.S., Findlay College, 1956
- b) M.B.A., University of Toledo, Ohio, 1963
- c) Manager and Grant Coordinator, Institute of Medical Research, 1965-1968
- d) Assistant Program Coordinator, NWO/RMP, 1968 -

3) Loalouise Geiger

- a) Born May 1925
- b) R.N., Robinwood Hospital, School of Nursing, 1946
- c) B.A., Baldwin-Wallace College, 1950
- d) Head nurse surgical unit, Elyria Memorial Hospital, 1955-1961
- e) Head nurse of surgical unit, Toledo Hospital, 1963-1968
- f) Nurse Research/Lecture Associate, Northwestern Ohio RMP, 1968 -

4) James L. Pullella

- a) B.A., University of Toledo, 1951
- b) M.P.H., University of Michigan, 1962
- c) Health Educator with Toledo Health Department, 1962-65
- d) Planning Consultant with the Community Planning Council of Northwestern Ohio, 1966-1968
- e) Systems Analyst, Northwestern Ohio RMP

5) Herman W. Reas, M.D.

- a) B.S., St. Joseph's College, 1949
- b) M.D., St. Louis University School of Medicine, 1952.
- c) Rotating internship, Mercy Hospital, Toledo, 1952-53
- d) Pediatric residency, St. Louis Children's Hospital, 1955-57.
- e) Northwestern Ohio RMP, Related Diseases

6) James B. Felkey

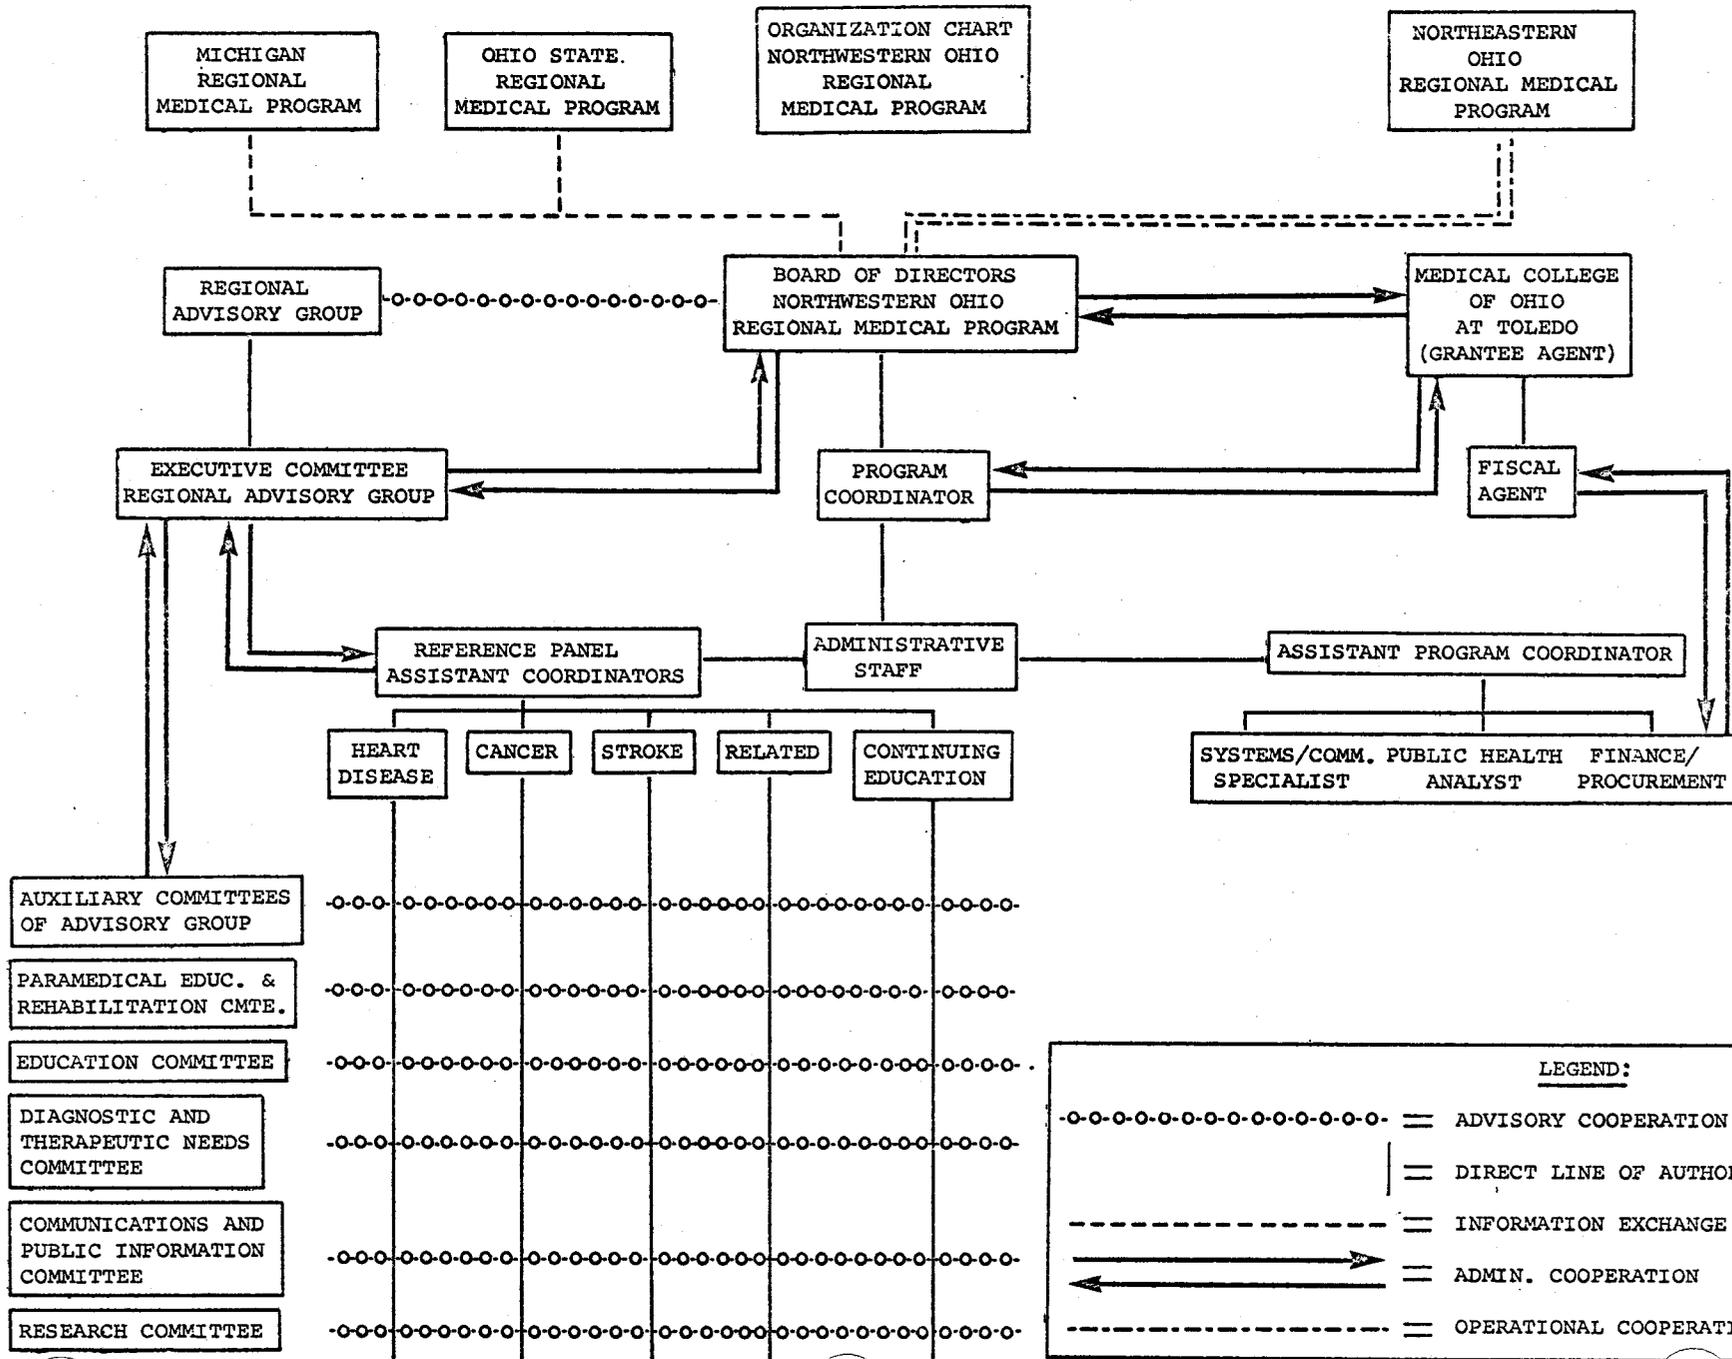

- a) Senior IBM operator, Owens Corning Fiberglas Corporation, Toledo, 1959-62
- b) Assistant Supervisor, American Lincoln Corporation, Toledo, 1962-65
- c) Data Processing Supervisor, The Mather Company, 1965-68
- d) Shift supervisor, Kaiser Jeep Corporation, Toledo, 1968-
- e) Systems Communications Specialist, Northwestern Ohio RMP

7) Cynthia Ann Haskell

- a) Born September 1946
- b) R.N., Maumee Valley Hospital School of Nursing
- c) Dialysis R.N., at Maumee Valley Hospital, 1961-1969
- d) Nurse Associate, Northwestern Ohio RMP

8) Karl A. Otterland

- a) Born 1920 Falkoping, Sweden
- b) M.D., University of Stockholm, Sweden, 1950
- c) Ph.D., University of Gothenberg, 1960
- d) Public Health Medical Inspector for juvenile workers, Gothenberg, Sweden, 1955-1961
- e) Quarrantine Medical Officer, Gothenberg, Sweden, 1955-1960

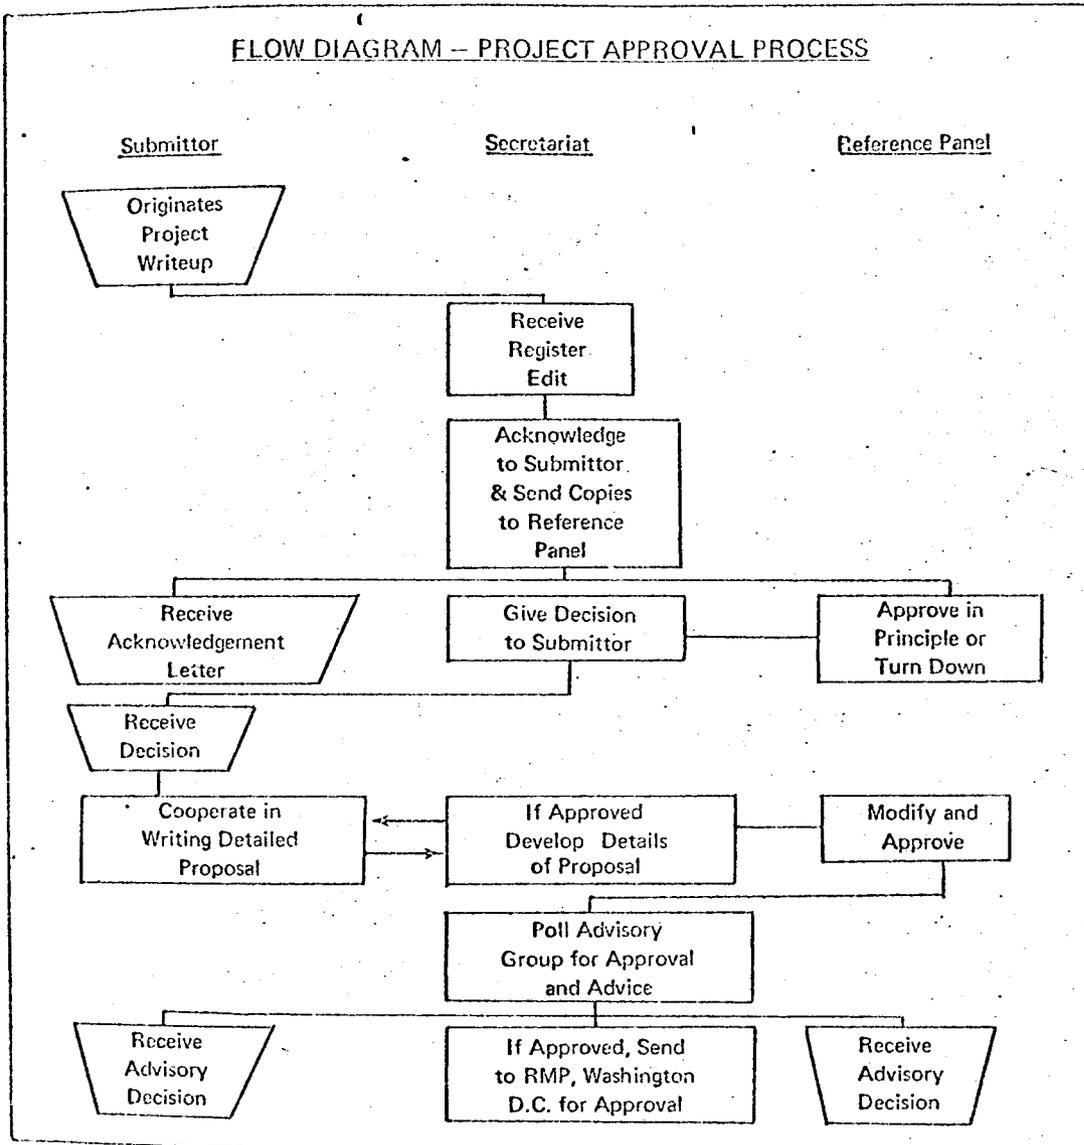

FIGURE 18

The primary project management interest during this planning phase is the status of the project. Important questions to be answered are:

- When will a decision be reached on this project?
- Where (and for what reason) is this project delayed?

VI. Overall Organization

- A. The Northwestern Ohio Regional Medical Program is administered by a Board of Directors consisting of a balanced representative instrument of the Regional Advisory Group and the Medical College of Ohio.
- B. The Medical College of Ohio is the Grantee Agent.
- C. The Board of Directors has administrative cooperation with the Medical College, Advisory cooperation with the RAG, and direct authority over the Program Coordinator and his staff.
 - 1. Membership of the Board of Directors is composed of the following representatives:
 - 1 Immediate Past President of RAG
 - 2 Medical College
 - 1 Advisory Group Chairman; 1 Hospital Administrator
 - 3 District chairman of the Advisory Group (in the three districts not represented by the Advisory Group Chairman)
 - 1 Program Coordinator RMP; 1 Other Health Profession
 - 2. Meetings of the Board of Directors are held at the discretion of the President, but there shall not be less than 6 meetings each year.
- D. Medical College serves as fiscal agent of the program, but the responsibility for program development rests with the Board of Directors and the multi-representative Regional Advisory Group.
- E. The Regional Advisory Group must be broadly representative of the geographic area and of the social groups who will be served by the RMP.
- F. The Regional Advisory Group will maintain between 50 and 55 members.
 - 1. Functions:
 - a. Review planning activities of the RMP to determine their degree of relevance to the objectives of the program.
 - b. To encourage cooperative arrangements among participating institutions and interested organizations.
 - c. To advise future directors and progression of the RMP to fulfill regional needs and identification of opportunities to improve patient care.
 - d. To review and approve or disapprove all specific operational proposals submitted to it by the program coordinator after initial screening by the appropriate Reference Panel and approval of the Board of Directors.

G. The RAG meets not less than 3 times a year with other meetings called as deemed necessary.

H. Regional Advisory Group Auxiliary Committees:

These committees were appointed early in the initial planning phase to advise on various areas of program development, including recommendations for Program content, assistance in Program implementation, and making recommendations of methods of evaluation of program objectives. They have recently been declared inactive by the Regional Advisory Group.

I. Reference Panels

1. Members will be appointed by Program Coordinator on the basis of their special interest and training in the categories of heart disease, cancer, stroke, or related disease.
2. The panels will serve as study groups to discuss and evaluate potential program elements within their specialty fields and to recommend whether or not further planning, or a pilot or an operational project should be developed by the RMP.

VII. Funded Operational Projects

#1 -- EDUCATIONAL PROGRAM FOR NURSES AND REHABILITATION NURSING
TECHNICIANS

Objectives: Train registered and practical nurses and nursing technicians in the rehabilitation of patients with stroke.

#2 -- COMMUNITY EDUCATION AND IMPROVED UTERINE CANCER CONTROL

Objectives: Prevent the occurrence of late cancer through education of physicians, allied health personnel, and the general public to the methods of uterine cancer control. Requests modernization of the Cancer Control Center Operation in Toledo and the enlargement of the cytotechnology training facilities prior to expansion in the entire Region.

#4 -- INTENSIVE CARDIAC CARE TRAINING PROGRAM FOR PROFESSIONAL
NURSES

Objectives: Train a total of 480 nurses in specialized cardiac care during a 3-year period and establish 5 educational centers within the Region. Training units are to be established in the Counties of Lucas, Allen, Erie, and Defiance. It is stated that at the end of the 3-year request, enough nurses will have been trained to staff all of the cardiac care facilities within this Region.

#5 -- THE IMPROVEMENT OF RESPIRATORY CARE GIVEN PATIENTS IN
EXTENDED CARE FACILITIES

Objectives: Establish 3 pilot respiratory care centers to rehabilitate patients with chronic pulmonary disease. One of the centers will be developed more fully than the others to increase the capacity for evaluation of the program. Provisions are to be made in this proposal to provide continuing education of both physicians and paramedical personnel in the field of Chronic Pulmonary Disease. The proposal also includes the establishment of a 2-year school of Inhalation Therapy in the Toledo Hospital.

#6 -- NORTHWESTERN OHIO ACTION ON SMOKING AND HEALTH

Objectives: Reduce morbidity and mortality caused by excessive smoking. To be accomplished through education of both lay and professional public in order to reduce the number of persons who take up the smoking habit, increase the number of people who give up smoking, and to determine the usefulness of various educational approaches and withdrawal clinics.

#7 -- A DIAL ACCESS TAPE LIBRARY SERVICE AS A MEDICAL INFORMATION RESOURCE FOR PHYSICIANS AND NURSES IN NORTHWESTERN OHIO

Objectives: Utilize the experience of Wisconsin in the development of a Dial Access Library service. Tapes will contain emergency medical information, review of new information and other general information which is difficult to obtain elsewhere. Service would be free to all professional personnel in the Northwestern Ohio RMP service area.
